FIU (Safety Management)

The Factories & Industrial Undertakings

FIU(SM)R, The Factories & Industrial Undertakings (Safety Management) Regulation has come into operation on 1 April 2002 by the government of HKSAR. Contractors or proprietors in relation to construction sites, shipyards, factories and other designated industrial undertakings with 50 or more employees must comply with the new regulation. Developing and maintaining a safety management system and conducting regular safety audit are a must for these contractors and proprietors. ACI provides combined audit for both OHSAS 18001 and FIU(SM)R which is more efficient and cost saving.

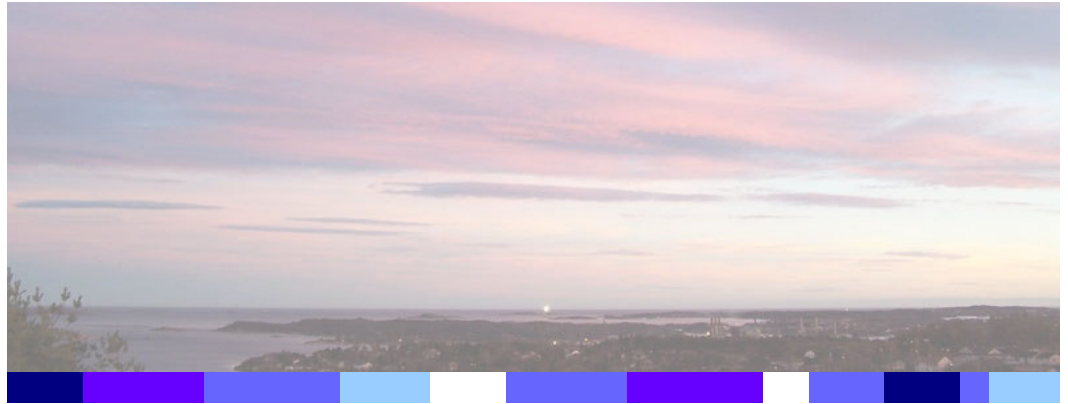

Benefits:

- **equipping workers personnel knowledge of work safety free-risking of health**
- **implementing a safety management system applicable to Hong Kong**
- **better identifying of hazardous exposure, the risk that brings to the workers and providing suitable personal protective equipment**
- **accurate evaluation of job related hazards or potential hazards and development of safety procedures**
- **reducing the outbreak of accidents**
- **providing a safe working environment for the workers**
