ACI proudly delivered 5S message to Olympus

Olympus is one of the world leaders in optical technology, producing numerous high quality digital cameras and other products to the world. ACI is proudly delivered the 5S message to Olympus staff.

5S includes “sort”, “systematic”, “shine”, “standardize” and “sustain”. The course focused on four the understanding of 5S principles, effective application and implementation of 5S into office & workplace, visual management, internal assessment and benchmarking case studies.

Participants found the instructor helpful and very friendly. The course and documents were well organized. After the course, most of the Olympus staff has a better understanding over the effective application of 5S. Furthermore, they know the importance of how 5S will assist Olympus in global development. There are numerous benefits that 5S brings, like minimizing breakdowns of equipment and enhancing cost effectiveness.

ACI welcomes all interesting parties in acquiring 5S knowledge or other training courses and services. We hope that our professional management knowledge can successfully assist your company to achieve a good working environment.
