

# ACI Awarded HACCP Certificate to Caritas Medical Centre Catering Department

Accredited Certification International Limited (ACI) has recently awarded HACCP Certificate to Caritas Medical Centre. The scope of the certification is “Provision of catering services (Kitchen Operation) for patients in Caritas Medical Centre” and “Production of patient food” of their Catering Department.

Caritas Medical Centre is under Caritas-Hong Kong, which is a leading charity organization in Hong Kong. Since being founded in July 1953, Caritas-Hong Kong has persisted in its efforts to help people strive for self-development and self-reliance. In order to better serve the public, Caritas Medical Centre has implemented the HACCP system in their Catering Department. HACCP is a systematic preventive approach to food safety from hazards in production processes. Successfully being awarded HACCP certificate will help improve their food safety management system as well as demonstrate their efforts in food safety and enhance confidence of the public and stakeholders.

As a leading third party certification body, ACI has continuously provided high quality certification services and related training courses to meet the requirements of clients from various backgrounds. It is our honor to facilitate our clients' further success in their industries.
