New Global ISO Guidance for Safe Working during COVID-19 pandemic is launched - ISO 45005:2020

The consequences of the COVID-19 pandemic on economic activity, employment, and our way of working have been far-reaching. Overcoming this challenge will be possible only if we work together to stop the spread of this disease and provide a safe and healthy working environment for both workers who work from home and in physical workplaces.

Knowledge and awareness are the keys that allow workplaces do in practice to help tackle this pandemic and protect employees. International Organization for Standardization (ISO), a worldwide federation of national standards body, has launched a new Standard ISO 45005:2020 which providing comprehensive guidelines for safe working during COVID-19.

It's everyone responsibilities to fight for the virus together and ensure a safe working place in relation to occupational health and safety management during the COVID-19 pandemic. For more details of the verification of this new Standard please refer to our article in "Int'l News & Trends" or contact our customer service department via email: acics2@aci-limited.com or tel: 3977 8938.

ACI offers new trainings in accordance with the new ISO 45005:2020
